Unlock the Door to Kodiaq Life

Explore the beauty of grander moments in life, where every moment is a manifestation of unparalleled adventure, waiting to be explored. Škoda Kodiaq is an ode to those who have conquered worlds and savored audacious success, and now yearn for life's limitless possibilities.

Exterior Design

Sophistication is more than a choice; It's a badge of pride that showcases our finest craftsmanship, design and heritage.

Front View

Škoda Kodiaq radiates exclusivity with its chrome accents, Crystalline full LED headlights with illuminated "eyelashes", Laurin & Klement badge and Silver alloy wheels.

Top View

Paint your journey with the colors of the sky with our electrically-adjustable panoramic sunroof.

Rear View

The Škoda Kodiaq heritage is brilliantly showcased through its Czech crystal-inspired full LED tail lights, a testament to unwavering design excellence.

Light Design

An epitome of design mastery, illuminated by its comprehensive LED system, for interrupted exploration.

Enhance Your Exploration
with Light Design

Interior Design

Transform every journey into a grand celebration with unparalleled luxury.

Comfort and Space

Unfold a world of comfort with flexible third-row seats featuring foldable backrests for a cozy and comfortable drive. Simply remove the luggage space cover, and you're good to go.

Upgrade To The Deluxe Suite

Indulge in ultimate luxury with perforated leather seats, 12-way electrically-adjustable front seats, and cutting-edge infotainment, creating a comfortable, stylish, and well-lit space.

Door Sill Strips / Welcome Logo

The decorative door sill strips in the front bear the Kodiaq inscription. The LEDs located on the underside of the front doors, projecting the Skoda inscription, illuminate the entry area.

Pedal Covers

The stylish interior is complemented by pedal covers in alloy design. The rubber facets on the pedals prevent your shoes from slipping.

12-way Adjustable Front Seats

The 12-way electrically-adjustable front seats allow multiple degrees of freedom to position your seat exactly the way you like it, and save this setting as a preset for easy access.

Canton Sound System

Enjoy absolute sound clarity, whether listening to music or the spoken word, on the Canton Sound System with twelve speakers and subwoofer. The total power output is 625 watts.

Panoramic Sunroof

Adding a touch of intrigue, the electrically-adjustable panoramic sunroof creates an expansive view above the front seats and can be covered with an electrically-adjustable blind when needed.

Comfort At The Back

At the rear part of the Jumbo Box, you will find, among other things, adjustable A/C vents and a 12 V socket.

Power Nap Package

The Power Nap Package at the rear seat enhances comfort and safety at the same time and we provide a blanket that assures sound naps with proper headrest for support.

Cooled/heated Front Seats

Both front seats come with cooling and heating feature, allowing you to maintain optimum comfort throughout the ride. Just another fine detail that's inspired by human intuition.

Rear Armrest

When the middle rear seat is not occupied, the armrest with drink holders can be folded down.

Storage and Utility

Driver's Storage Box

The driver can utilise a practical tilting storage compartment located directly below the steering wheel.

Umbrella Storage

Škoda's built-in driver's door umbrella drains water, preserving a dry car interior with functional and stylish design.

Dashboard Storage

Two spacious compartments with tilting lids are located in the dashboard by the front passenger seat. The glovebox is cooled and illuminated.

Virtual Pedal

Open the luggage compartment effortlessly with a foot swipe—thanks to the virtual pedal for the touch-free convenience.

Capacity

The Skoda Kodiaq allows you to create your own space. You can enjoy 270 litres of free space when the car is fully occupied or enjoy 2,005 litres of space with the third and second rows of seats folded down.

Advanced Kessy

With the new version of the KESSY (Keyless Entry, Start and Stop System), all doors with request sensors can be used to unlock or lock the car.

Headlight Washers

Integrated telescopic headlight washers easily take care of dust and mud.

Smart Phone Box

The phone box amplifies your mobile phone signal and wirelessly charges your device while two USB-C data enable seamless connections to the infotainment system.

Stay Connected Everywhere You Go

Being online all the time isn't just about entertainment and information; it's your constant companion, ready to assist you on the go. Your gateway to a world of unlimited possibilities.

Smartlink*

With the SmartLink system (Škoda Connectivity bundle supporting MirrorLink®, Apple CarPlay, and Android Auto), the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay, or Android Auto.

*Wireless SmartLink works on select handsets

MyŠKODA ConnectED

MyŠKODA ConnectED Online Services

The inbuilt Connectivity mobile online services can be accessed at any time via the MyŠKODA ConnectED app. The app displays a clearly laid out Vehicle Health Report on the smartphone. The system automatically stores important data every time the ignition is switched off. Remote vehicle access is also available, which allows owners to retrieve vehicle information and driving data, including the car's parking location for instance.

Track Your Car

Keep an eye on the car location from your home or office. Stay informed when someone is driving your car.

Real-time Speed Tracking

Monitor the real time driving speed.

Geofence Breach Notification

Add geofence boundary for your car, get an alert as geofence area is breached.

Road Side Assistance

Get road side services like flat tyre repair, battery jump-start, refuelling, towing and a lot more.

SOS (Emergency Sms With Location)

Long press the SOS button to send an emergency SMS to your contacts with your location.

Route Tracking / Deviation Alert

Live track the travel route taken by your family and get quick deviation alerts.

Walk To Car

Locate your car quickly in big parking lots or crowded areas.

Device Tampering Alert

Stay alert with prompt notifications on device tampering.

Driving Behaviour

Get real-time information on driving behaviour eg: harsh braking, sharp turns, over speeding, rapid acceleration, etc.

Tow Alert

Get an alert in case your car is being towed away.

Performance

A symphony of unmatched precision and power.

Force of Nature

Tailoring to diverse family stories, we offer dynamism with exceptional fuel efficiency for any adventure, be it mountain trips, urban escapades, or off-road explorations.

Engine

Experience pure balance and untethered power with the 2.0 TSI/ 140 kW / 190PS petrol engine, built to traverse any and every road.

Dynamic Chassis Control

The core element of the system is a dual-shell, gas-liquid shock absorber with adaptable damping characteristics. Each shock absorber comes with an electronic valve to control the flow of oil and thus also the damping characteristics. Another indispensable component of the adaptive chassis is its electronic control unit that continuously monitors and evaluates various input parameters to choose optimum damping characteristics for each shock absorber. When the adjustment control system fails, the shock absorber uses preset characteristics that are close to those of the Normal mode for the conventional shock absorber.

In the event of failure of one of the shock absorbers the adjustment control of the remaining shock absorber units is deactivated.

4X4

The 4X4 drive is provided by an inter-axle electronically-controlled multi-plate clutch. The coupling of the rear axle is automatic, so under normal conditions the car can utilise the advantages of the front-wheel drive, and under extreme conditions the excellent traction of 4x4 drive.

Drive Mode Select

The Driving Mode Select includes Eco, Comfort, Normal, Sport, Individual & Snow Mode, which ensures good handling even on low-grip surfaces.

Off-Road Button

The dedicated off-road button shows additional information like compass, inclination and oil temperature.

Virtual Cockpit

The new 26.03 cm fully programmable Virtual Cockpit displays onboard computer specifications in combination with other information such as navigation. You can choose from five layouts controlled via the View button on the steering wheel.

Safety

This vehicle comes equipped with 9 airbags as a standard feature. In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over.

Front and Rear Side Airbags

These airbags (shown together with the activated head airbag) protect the pelvis and chest of the driver and other passengers in the event of a side collision.

Front Driver and Passenger Airbags

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard.

Knee Airbag

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

Head Airbags

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

Traction Control System (TCS)

TCS/ASR helps to stabilise the vehicle when accelerating or driving on low-grip roads. TCS/ASR reduces the drive power transmitted to the wheels when the wheels spin.

Anti-lock Braking System (ABS)

ABS helps maintain control of the vehicle during emergency braking. An ABS intervention is noticeable by pulsating movements of the brake pedal.

Roll Over Protection

On identifying a rollover threat, the ESC brakes particular wheels as prevention.

Motor Slip Regulation (MSR)

MSR helps maintain control during sudden speed reduction by preventing driven wheel lock, ensuring smoother rotation and control through increased engine speed.

Electronic Differential Locking System

EDS enhances vehicle stability on uneven grip surfaces among individual wheels, while XDS+ supports turning by braking inner-side wheels, effective up to 30km/hr.

Multi-collision Brake

In case of an accident, the Multi-Collision Brake starts braking to prevent further uncontrolled movement of the vehicle, thus reducing the likelihood of further collisions.

360-Degree Camera

The 360-degree view camera combines front, side, and rear cameras for precise parking. It reveals nearby obstacles, ensuring safe and smooth driving and parking.

Park Assist

The system automatically chooses suitable parking spaces based on the parallel or perpendicularly parked vehicles. The updated Park Assist function can be activated whenever you find yourself in a challenging parking spot.

Technical Specifications

Technical Description	Equipment
Engine	
Engine type	Turbocharged Petrol Engine
Cylinders	4
Displacement [cm ³]	1984
Max. power/revs [kW(PS) at rpm]	140(190)/4,200-6,000
Max. torque/revs [Nm at rpm]	320/1,500-4,100
Fuel consumption - rule 115 of CMVR [km/l]	13.32
Transmission	
Wheel drive	4x4
Transmission	Automatic 7-speed, DSG, with Tiptronic manual gear changing
Chassis	
Front axle	McPherson suspension with lower triangular links and torsion stabiliser
Rear axle	Multi-element axle, with longitudinal and transverse links, with torsion stabiliser
Braking system	Hydraulic diagonal dual-circuit braking system, vacuum servo assisted
Brake – front	Disc with inner cooling and with single-piston floating calliper
Brake – rear	Disc Brakes
Steering system	Direct rack and pinion steering with electro mechanic power steering
Wheels	7J x 18, 7.5J x 18, 4J x 18 (Spare Wheel)
Tyres	235/55 R18
Outside dimensions	
Length [mm]	4699
Width [mm]	1882
Height (with roof rails) [mm]	1665 (1685)
Wheel base [mm]	2791
Ground clearance (laden condition) [mm]	140
Inside dimensions	
Storage capacity [l]	270
Storage capacity with rear seatback folded down [l]	2005
Weights	
Kerb weight [kg]	1793
Gross weight [kg]	2493
Liquids	
Tank capacity [l]	58
