TATA
SIERRA
escape mediocre

It opened minds to the art of dreaming.
It redefined what owning a car could mean -
bold, aspirational, unforgettable.
Sierra was not just driven.
It was admired. Desired. It was extraordinary.
Now, the legend returns.
Reimagined for a new era.
Sharper in design.
Richer in detail.
More iconic than ever.
For those who've arrived.
And now seek to arrive differently.
For those who refuse to blend in -
because they've earned the freedom not to.

TATA
SIERRA
escape. redefine.

red^{dot} winner 2025

When design dares to escape the ordinary, the world takes notice

The most prestigious design competition, Red Dot, awarded Sierra for its bold and ground-breaking design. Since 1955, Red Dot has set global benchmarks in design and innovation. This year, an international jury unanimously crowned Sierra with this distinction, outlining global roads.

It stands as the first car in its class to be recognised by Red Dot, an iconic feat by an SUV that redefines what's possible.
